

Project reference

Stamperland/529986/CWA

Our alliance partner, Caledonia Water Alliance (CWA), will be managing this work on our behalf.

29th April 2026

Taking care of your sewer network in Clarkston

What we are doing

We are taking care of your wastewater services in your community which will help prevent sewer flooding and to do this we need to upgrade the sewer network in your area.

When are we doing it

The site set up on Moray Gardens will start on Monday 18th May 2026, and the pipe installation works on Moray Drive will start on Monday 25th May 2026 and move on a rolling programme into Stamperland Gardens. The programme of work is expected to be completed within 12 months.

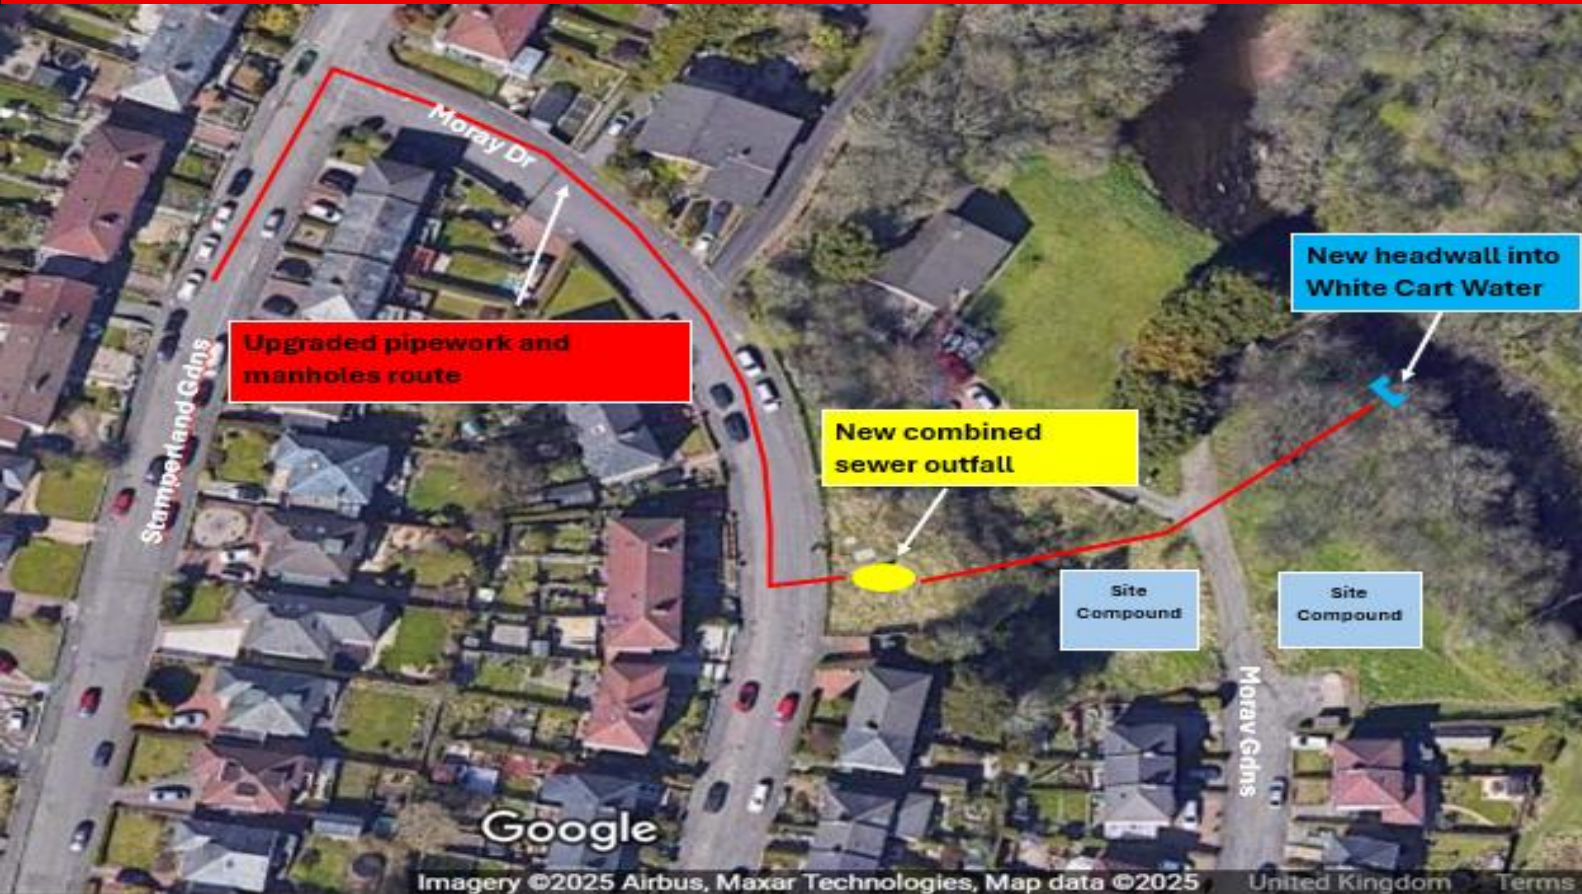

What happens next

- Please see over the page for site layout along with pipeline route.
- Your wastewater supply will not be affected by these works.
- The project will consist of installing a new pipeline as well as the construction of a new storm overflow tank.
- The site compound will be located at the bottom of Moray Gardens.
- **To facilitate the new wastewater pipeline, we will need to close Moray Drive in phases. The first phase will run from 25th May, starting at number 18 and progressing as a rolling closure toward the junction with Stamperland Gardens. Dates for the subsequent phases will be communicated at a later date.**
- **We may need to turn off your water supply. If we do, we will send you further information at least 48 hours in advance, detailing the dates and times that your supply will be affected and what to do.**
- There will be roadworks during the dates above. This will include the use of temporary traffic lights, road closure and footpath closure. Advanced signage will be in place prior to any road closures taking place. Please follow all signs put in place.
- You may see and hear an increase in construction traffic and noise during the project our site team will endeavor to keep the level of noise and disruption to a minimum.
- Working areas will be reinstated to their original condition upon completion of the project.

Construction and site location

A temporary site compound similar to the photo above will be set up.

Thank you for your patience and understanding while we complete this essential work. We apologise for any inconvenience these works may cause.

Yours sincerely,

Joanne Craig
