

Project reference

Stamperland/529986/CWA

Our alliance partner, Caledonia Water Alliance (CWA), will be managing this work on our behalf.

13th July 2026

Taking care of your sewer network in Clarkston

We wrote to you recently regarding planned works in your area and would now like to give you a further up date.

What we are doing

We are taking care of your wastewater services in your community which will help prevent sewer flooding and to do this we need to upgrade the sewer network in your area.

When are we doing it

Due to unforeseen delays to the project, we have taken the decision to temporarily reopen Moray Drive from Tuesday 14th July 2026 until Monday 10th August 2026.

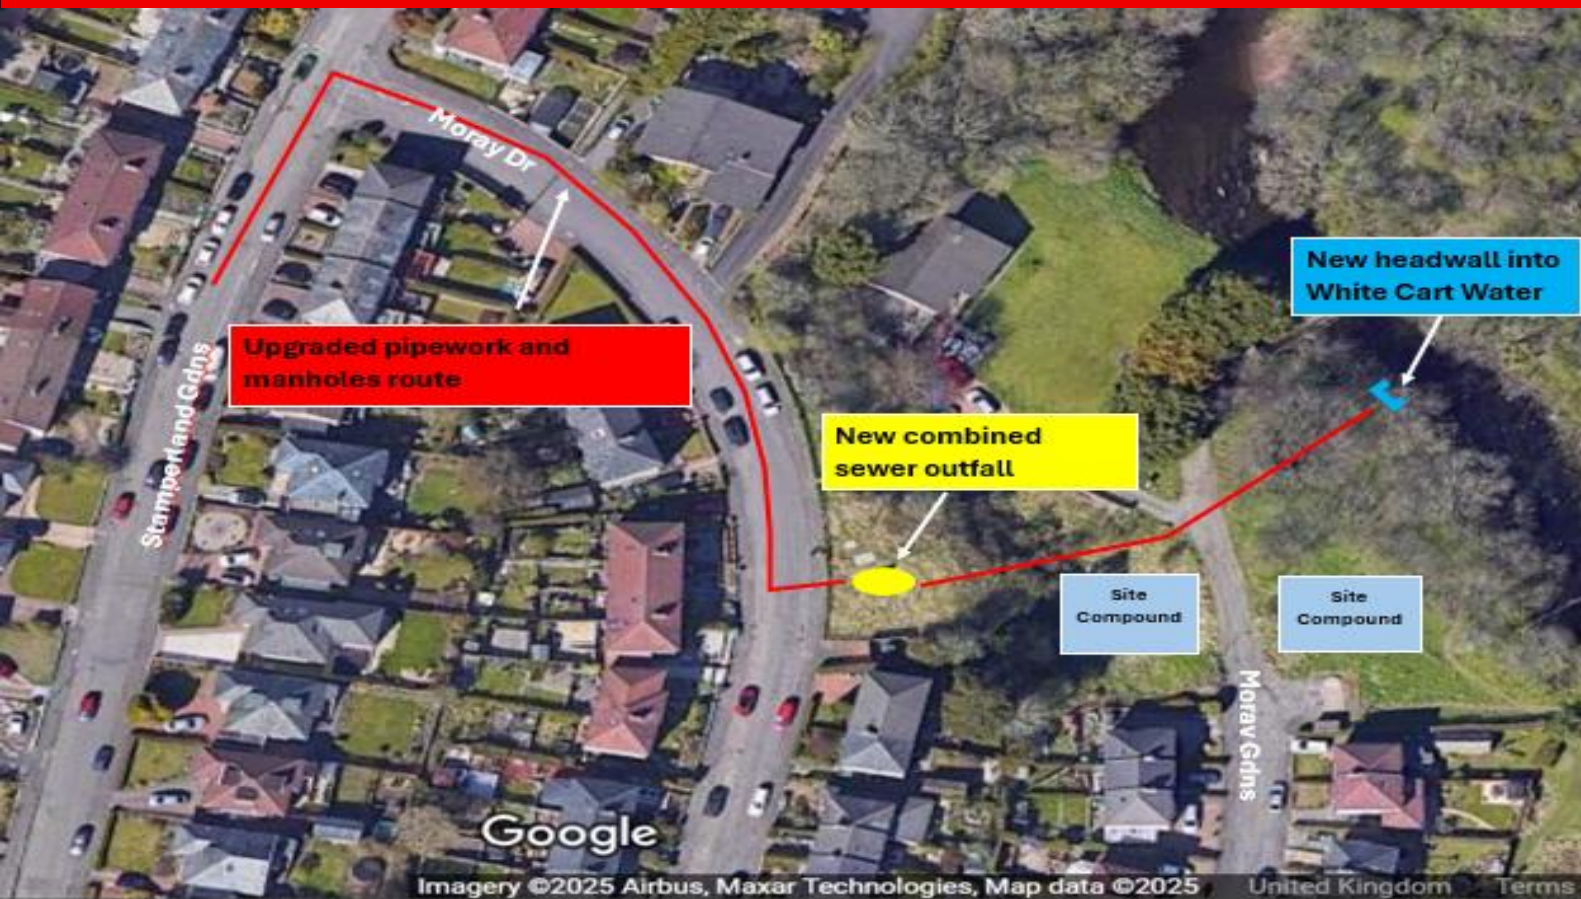

What happens next

- Please see over the page for site layout along with pipeline route.
- The water main diversion works are now complete.
- A temporary give and take traffic management system will be in place until 10th August 2026.
- **The road closure will be reinstated from Monday 10th August 2026 and will remain in place until December 2026, enabling us to safely complete the remaining wastewater improvement works.**
- Work on Stamperland Gardens will be carried out under traffic lights, starting in January 2027
- You will see and hear an increase in construction traffic and noise during the project our site team will endeavor to keep the level of noise and disruption to a minimum.

Construction and Site Location

A temporary site compound similar to the photo above will be set up.

Thank you for your patience and understanding while we complete this essential work. We apologise for any inconvenience these works may cause.

Yours sincerely,

Joanne Craig
