

Project reference

Margaret Walk/503333/CWA

Our alliance partner, Caledonia Water Alliance (CWA), will be managing this work on our behalf.

15th October 2026

Taking care of your sewer network in Lincluden

We wrote to you recently regarding planned works in your area and would now like to give you a further up date.

What we are doing

We are taking care of your wastewater services in your community which will help prevent sewer flooding and to do this we need to upgrade the sewer network in your area.

When are we doing it

We have encountered engineering difficulties on Stewartry Road, which have resulted in an extension to the planned programme of works. We are now aiming to complete this section by mid November 2026.

As a result, work on Margaret Walk will now commence on 16th November 2026 and last approximately 12 weeks.

What happens next

- Please see over the page for further details.
- Your water and wastewater supply will not be affected by these works.
- The project will consist of installing a new pipeline as well as the construction of a new storm overflow tank.
- There will be roadworks during the dates above. Advanced signage will be in place prior to any road closures taking place. Please follow all signs put in place.
- The road closure on Margaret Walk will be carried out in short sections to maintain as much resident access and parking as possible.
- Access to car parks at the rear of Fergus Walk will be maintained during the road closure on Margaret Walk.
- You may see and hear an increase in construction traffic and noise during the project our site team will endeavor to keep the level of noise and disruption to a minimum.
- Please note the site will close down for the festive period on 22nd December and re-open on 4th January 2027.
- Site compound demobilisation will commence at the start of February 2027 with full reinstatement taking place in spring/summer 2027.
