Our delivery partner Morrison Construction will be carrying out this work on our behalf.

3rd June 2026

Taking care of your sewer network in Perth Road, Dundee.

What we are doing.

We are taking care of the wastewater services in your community by carrying out reactive repairs to the sewer network. We need to extend our traffic management to complete the work.

When are we doing it.

As of Monday 15th June, our traffic management will be extended, occupying a lane closure between Taylors Lane and Union Place. We expect to have all associated work completed by the end of June.

What happens next.

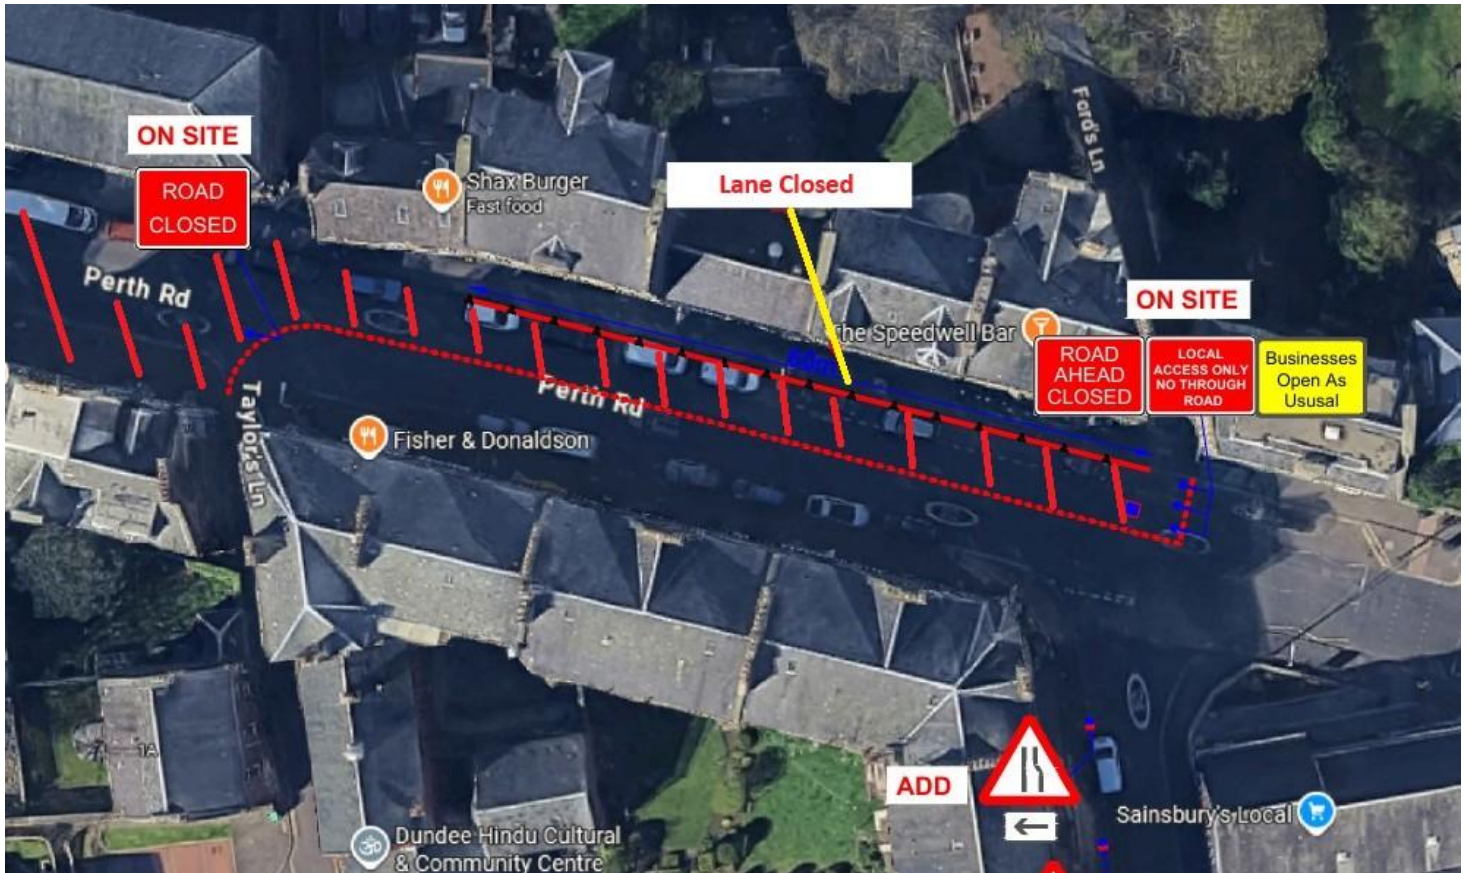

- The existing road closure will remain in place although we need to occupy an additional lane on the road between Taylors Lane and Union Place to finish our work to reline the sewer.
- Access to businesses and residential properties will remain via public footpaths. Bins should continue to be taken out as normal.
- **All buses services remain diverted via Hawkhill.** Road users should take care while following all diversion signage and allow extra time for journeys through this area.
- Your water supply and drainage services from your kitchen and bathroom will not be affected by our work.

To find out more about what we are doing in your area visit:
scottishwater.co.uk

- We expect to complete our repairs and any reinstatements by the end of June 26.
- During our work you may notice some noise from plant and equipment, including the use of over-pumping that may operate overnight. We will do our best to mitigate any disruption where possible.

For Illustrative Purposes:

Please see below for details of how to keep up to date with what we are doing in your area. Updates will be posted at www.scottishwater.co.uk/PerthRoad, and quote our reference; **Capital/558783/MorrisonConstruction**, when contacting us about this work.

Thank you for your continued patience and understanding while we complete this essential work.

Callum Hunter
Communication Manager
